PROFILE

To carry through the goals of a Full-stack Web Developer and to be globally competitive to further strengthen my skills and knowledge by working with great sense of responsibility, dedication and hard work, such that, whatever expertise, training or skills I gain will be used for development and share in the further growth of the company.

EXPERIENCE

QA ENGINEER INTERN

D.W. Morgan
2023 - 2024

- Created and maintained test cases for project assignment
- Assisted web and mobile developers in testing applications before scheduled deployments
- Effectively tracked problem reports or tickets on Jira and followed through on the progress

KODEGO BOOTCAMP GRADUATE

KodeGo
2023

- Built three outstanding website projects as part of training requirement, two of which are with a team:

  Serendipity Villa website   *March 6 - March 16, 2023*
  - Tools used: HTML, CSS, JavaScript, Bootstrap
  - Individual project that I built from the ground up

  MP2 Movie trailers   *March 27 - April 11, 2023*
  - Tools used: ReactJS, Bootstrap, JSON database
  - Built the database from scratch and collaborated with my partner in building the Frontend UI

  Mindfulltasks web app   *April 26 - May 12, 2023*
  - Tools used: ReactJS, Tailwind, Laravel, PHP
  - Built a task reminder/organizer web app from scratch
  - Led a team of three in concept building and design, provided Backend codes and some Frontend UIs, presented the project to a team of panelists, and won us the best capstone project

TIER 2 TECHNICAL SUPPORT ADVISOR

TDCX Philippines
2020-2022

- Handled Tier 1 escalation cases and consults as a Tier 2 technical support advisor for Apple
- Hand picked by management to be part of mentoring team who assisted and taught new employees and Tier 2 advisors.
